## INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and Members of Town Council  
Town of Campobello  
Campobello, South Carolina

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Campobello as of and for the year ended September 30, 2021 and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Campobello, as of September 30, 2021, and the respective changes in financial position and budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

S.C. Association of Certified Public Accountants

The Honorable Mayor and Members of Town Council  
Town of Campobello  
September 15, 2022

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information, and the pension schedules be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Town of Campobello's basic financial statements. The supplemental schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## TOWN OF CAMPOBELLO

### MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Town of Campobello, South Carolina, we offer readers of the Town of Campobello, South Carolina's financial statements this narrative overview and analysis of the financial activities of the Town of Campobello, South Carolina, for the fiscal year ended September 30, 2021. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Town's financial statements, which follow this narrative.

#### Financial Highlights

- The assets of the Town Campobello, South Carolina, exceeded its liabilities at the close of the year by \$677,985 (net position).
- The government's total net position increased by \$6,238.
- As of the close of the current fiscal year, the Town of Campobello, South Carolina's governmental funds reported combined ending fund balances of \$619,959, an increase of \$115,497 from the prior year. Approximately 87 percent of this total amount, or \$537,819, is available for spending at the government's discretion (assigned and unassigned fund balance).
- At the end of the current fiscal year, assigned and unassigned fund balances for the General Fund totaled \$260,722 or 37.0 percent of total general fund expenditures for the fiscal year.
- The Town's total long-term debt decreased by \$5,176 during the current fiscal year. A new lease of \$40,691 was entered into during the year. The Town paid principal of \$44,648 and interest of \$29,837 for total debt service cost of \$74,485.

#### Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Town of Campobello's basic financial statements. The Town's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The basic financial statements present two different views of the Town through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Town of Campobello, South Carolina.

#### Basic Financial Statements

The first two statements in the basic financial statements are the Government-wide Financial Statements. They provide both short and long-term information about the Town's financial status.

The next statements are Fund Financial Statements. These statements focus on the activities of the individual parts of the Town's government. These statements provide more detail than the government-wide financial statements. There are two parts to the Fund Financial Statements: 1) the governmental funds statements; and 2) the fiduciary funds statements.

The next section of the basic financial statements is the notes. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, required supplemental information is provided to show details about the Town's General Fund revenues and expenditures compared to budget, its Fire District Fund revenues and expenditures compared to budget, and its pension plan reporting. Other supplemental information provides information about the nonmajor governmental funds and schedule of fines, assessments, and surcharges.

### **Government-wide Financial Statements**

The government-wide financial statements are designed to provide the reader with a broad overview of the Town's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the Town's financial status as a whole.

The two government-wide statements report the Town's net position and how it has changed. Net position is the difference between the Town's total assets and deferred outflows and total liabilities and deferred inflows. Measuring net position is one way to gauge the Town's financial condition.

The government-wide financial statements consist of only governmental activities. The governmental activities include all of the basic services such as a public safety, social and recreational, and general administration. Property taxes, business license taxes, intergovernmental revenues and franchise fee taxes finance most of these activities.

### **Fund Financial Statements**

The fund financial statements provide a more detailed look at the Town's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Campobello, South Carolina uses fund accounting to ensure and reflect compliance (or non-compliance) with financial-related legal requirements, such as the Town's budget ordinance. All of the funds of the Town of Campobello, South Carolina can be divided into two categories: governmental funds and fiduciary funds.

### **Governmental Funds**

Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. All of the Town's basic services are accounted for in the governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting* that provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the Town's programs. The relationship between government activities (reported in the statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

The Town of Campobello, South Carolina adopts an annual budget for its General Fund and its Fire District Fund, as required by State statutes. The budgets are legally adopted documents that incorporate input from the citizens of the Town, the management of the Town, and the decisions of the Council about which services to provide and how to pay for them. They also, authorize the Town to obtain funds from identified sources to finance these current period activities. The budgetary statements provided for the General Fund and Fire District Fund demonstrate how well the Town complied with the budget ordinances and whether or not the Town succeeded in providing the services as planned when the budgets were adopted. The budgetary comparison statements use the budgetary basis of accounting and are presented using the same format, language, and classifications as the legal budget documents. The statements show four columns: 1) the original budgets as adopted by the Council; 2) the final budgets as amended by the Council; 3) the actual resources, charges to appropriations, and ending balances in the General Fund and the Fire District Fund; and 4) the difference or variance between the final budgets and the actual resources and charges.

### **Fiduciary Funds**

The Town is an agent, or fiduciary, for the Campobello Fire Department 1% monies. Fiduciary funds are not reflected in the government-wide financial statements because the resources are not available to support the Town's own programs. The Town's fiduciary activities are reported in a separate Statement of Fiduciary Net Position. Control over Expenditures is exercised by the fire department officers and not by Town administration.

### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

### **Other Information**

In addition to the basic financial statements and accompanying notes, this report includes certain supplementary information concerning the Town of Campobello, South Carolina's budgetary reporting, combining nonmajor governmental funds statements, and other information.

In addition, this report includes certain information concerning the Town of Campobello's progress in funding its obligation to provide pension benefits to its employees.

## Government-wide Financial Analysis

	Governmental Activities	
	2021	2020
Current and other assets	\$ 679,861	\$ 537,478
Capital assets, net	844,835	907,568
Deferred outflows of resources	199,037	291,759
Total assets and deferred outflows	1,723,733	1,736,805
Long-term liabilities outstanding	842,759	1,022,278
Other liabilities	52,623	22,546
Deferred inflows of resources	150,366	20,234
Total liabilities and deferred inflows	1,045,748	1,065,058
Net position		
Net invested in capital assets	844,836	734,132
Restricted	76,477	70,734
Unrestricted	(243,328)	(133,119)
Total net position	\$ 677,985	\$ 671,747

As noted earlier, net position may serve over time as one useful indicator of a government's financial condition. The assets of the Town of Campobello, South Carolina exceeded liabilities by \$677,985 as of September 30, 2021. The Town's net position increased by \$ 6,238 for the fiscal year ended September 30, 2021. Of total net position, the largest portion (125%) reflects the investment in capital assets (buildings, equipment, and vehicles), less any debt still outstanding. The Town uses these capital assets to provide services to citizens; consequentially, these assets are not available for future spending. Although the Town's investment in capital assets is reported net of the outstanding debt, the resources needed to repay that debt must be provided by other sources, since the capital assets cannot be used to liquidate these liabilities. An additional portion of the Town's net position (11.2%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$(243,328) is unrestricted.

Several particular aspects of the Town's financial operations significantly influenced the total unrestricted governmental net position:

- General government expenses increased approximately \$89,000 due primarily to increases in professional fees and court expenses over the prior year.
- Police expenses decreased approximately \$63,000 due to decreases in salaries and related expenses.
- Fire department expenses increased approximately \$67,000 primarily due to increases in fire prevention expenses.

**Town of Campobello, South Carolina**  
**Changes in Net Position**

	Governmental Activities	
	2021	2020
Revenues:		
Program revenues		
Charges for services	\$ 437,614	\$ 226,711
Operating grants and contributions	1,125	36,227
General revenues		
Property taxes	626,027	585,739
Other taxes	178,330	170,739
Intergovernmental revenues	20,535	341
Sale of fixed assets	1,684	2,802
Investment earnings	6	10
Miscellaneous	4,893	1,195
Total revenues	1,270,214	1,023,720
Expenses:		
General government	234,247	180,638
Public safety	991,870	987,798
Recreation, tourism, health and social	13,580	3,970
Interest on long-term debt	24,279	2,287
Total expenses	1,263,976	1,174,693
Increase (decrease) in net position	6,238	(150,973)
Net position, October 1	671,747	822,720
Net position, September 30	\$ 677,985	\$ 671,747

**Governmental Activities**

Governmental activities increased the Town's net position by \$6,238, thereby accounting for 100% of the total increase in net position of the Town of Campobello, South Carolina. Key elements of this increase are:

- Operating expenses increased \$89,283 during the year due primarily to an increase in personnel costs and professional fees. Total operating expenses increased during the current year from \$1,174,693 to \$1,263,976.
- Total revenue increased from \$1,023,720 to \$1,270,214.
- Depreciation on capital assets which is a noncash expense totaled \$115,792 and is detailed by governmental activity in the notes to the financial statements.

## **Financial Analysis of the Town's Funds**

As noted earlier, the Town of Campobello, South Carolina uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

### **Governmental Funds**

The focus of the Town of Campobello, South Carolina's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Town of Campobello, South Carolina's financing requirements. Specifically, unassigned fund balance can be a useful measure of a government's net resources available for spending at the end of the fiscal year.

The general fund is the chief operating fund of the Town of Campobello, South Carolina. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$260,722, while total fund balance was \$260,722. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and assigned fund balance to total fund expenditures. Unassigned and assigned fund balance represents 37 percent of total General Fund expenditures.

The Town considers the fire department to be a separate special revenue fund since the fire district has a separate tax levy and annual budget. The Fire District Fund's revenues and other sources exceeded its expenditures by \$109,366 for the year ended September 30, 2021.

At September 30, 2021, the governmental funds of the Towns of Campobello, South Carolina reported a combined fund balance of \$619,959, a 23 percent increase from last year.

### **General Fund Budgetary Highlights**

During the fiscal year, the Town and Fire District did not revise their budgets. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that were used to prepare the original budget ordinances once exact information is available; 2) amendments made to recognize new funding amount from external sources, such as Federal and State grants; and 3) increases in appropriations that become necessary to maintain services.

Revenues and expenditures were consistently held in check to allow the Town of Campobello to comply with its budgetary requirements.

Revenues in the General Fund were less than budgeted amounts primarily because of a decrease in intergovernmental revenues and police fines. Revenues in the Fire District Fund were more than budgeted amounts with more intergovernmental, fees for services and property tax revenues. Expenditures in the General Fund were less than budgeted amounts due to decreased personnel costs. Expenditures were in excess of budgeted amounts for the Fire District Fund primarily due to increased fire prevention and increased personnel costs.

## Capital Assets

The Town of Campobello, South Carolina's investment in capital assets for its governmental activities as of September 30, 2021, totals \$844,835 (net of accumulated depreciation). These assets include land and land improvements, buildings and improvements, furniture and equipment, and vehicles.

Major capital asset transactions during the year include the following additions:

2021 Chevrolet Silverado	\$	40,691
Fire Department Ice Machine		2,609
Television		1,024
Protective Equipment		8,917
Trailer		1,500
	\$	<u>54,741</u>

## Capital Assets, Net of Depreciation

	Government Activities	
	2021	2020
Land	\$ 45,068	\$ 45,068
Buildings and Improvements	213,342	224,648
Land Improvements	1,738	2,755
Furniture and Equipment	179,694	197,450
Vehicles	404,994	437,647
Total	<u>\$ 844,836</u>	<u>\$ 907,568</u>

Additional information on the Town's capital assets can be found in the notes of the basic financial statements.

## Debt Administration

Long-term obligations consist of the following:

	Government Activities	
	2021	2020
Capitalized lease obligations	\$ 137,040	\$ 140,997
Compensated absences	21,749	32,439
Net pension liability	683,970	848,842
Total	<u>\$ 842,759</u>	<u>\$ 1,022,278</u>

At September 30, 2021, the Town had total long-term debt of \$842,759 including a lease payable on a fire substation in the amount of \$64,269, two leases on vehicles for the Police Department in the amounts of \$16,187 and \$15,893, and one lease on a vehicle for the Fire Department in the amount of \$40,691.

## **Economic Factors and Next Year's Budgets and Rates**

The following key economic indicators reflect the growth and prosperity of the Town.

- Property tax revenues remained steady for the Town and Fire District.
- Franchise fees increased by approximately \$8,282 due to increases in insurance fees collected by the Municipal Association of South Carolina.

## **Budget Highlights for the Fiscal Year Ending September 30, 2022**

### **Governmental Activities**

Budgeted revenues and other sources of the General Fund are expected to increase by approximately \$354,000 primarily due to an increase in MASC fees and American Rescue Plan funds of \$59,000 and \$295,000, respectively.

Budgeted revenues and other sources of the Fire District Fund are expected to increase approximately \$57,000 primarily due to increase property taxes.

Budgeted expenditures and other uses in General Fund are expected to increase approximately \$133,000 primarily due to increased capital expenditures.

Budgeted expenditures in the Fire District are expected to increase by approximately \$57,000 due to minor increases in several categories.

### **Request for Information**

This report is designed to provide an overview of the Town's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to the Mayor, Town of Campobello, P.O. Box 9, Campobello, South Carolina 29322, telephone (864) 468-4545.

**RECONCILIATION OF THE STATEMENT OF REVENUES,  
EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
YEAR ENDED SEPTEMBER 30, 2021**

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$	115,497
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Capital outlay of \$54,741 was less than depreciation expense of \$115,970 in the current period.		(61,229)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. Change in deferred outflows of resources for tax revenues of \$64,785.		64,785
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of the governmental funds. Neither transaction has any effect on net position, This amount is the net effect of these differences in the treatment of long-term debt. Proceeds from the issuance of long-term debt were \$40,691 and principal payments totaled \$51,292 during the year.		10,601
(Increases) decreases in liabilities for accrued vacation are considered long term and are not included in the statement of revenues, expenditures and changes in fund balance.		(10,690)
Pension expenses for changes in deferred outflows, deferred inflows, and pension.		<u>(112,726)</u>
Change in Net Position of Governmental Activities	\$	<u><u>6,238</u></u>

## TOWN OF NINTEY SIX

### NOTES TO THE FINANCIAL STATEMENTS SEPTEMBER 30, 2021

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

##### **Reporting Entity**

The Town of Campobello, South Carolina (the "Town") was incorporated and chartered February 1882. On July 6, 1976, in accordance with Section 47-26 of the 1962 S.C. Code of Laws, the Town adopted the council form of government. As required by generally accepted accounting principles, these financial statements present the Town.

##### **Basis of Presentation**

##### **Government-wide Statements**

The statement of net position and the statement of activities report information about all of the nonfiduciary activities of the primary government. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double counting of internal activities. Governmental activities generally are financed through property taxes, licenses, intergovernmental revenues and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Town's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues including all taxes are presented as general revenues.

*Fund Financial Statements* - The fund financial statements provide information about the Town's funds. Separate statements for each fund category are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. The Town does not have any enterprise funds (business- type activities).

*Governmental Funds* - Governmental funds are those through which most governmental functions typically are financed. Governmental funds reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance.

The Town reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the Town. The General Fund is used to account for all financial resources of the Town except those required to be accounted for in another fund. The primary revenue sources are ad valorem taxes, business licenses, franchise fees, intergovernmental revenues, and police fines. The primary expenditures are for public safety, recreation and tourism, and general administration.

Fire District Fund - The Fire District Fund is a special revenue fund used to account for the activity of the Campobello Fire Department whose geographic boundaries exceed the Town limits. Its primary sources of revenues are ad valorem taxes and grants.

The Town reports the following nonmajor governmental funds:

Local Hospitality Tax Fund - The Hospitality Tax Fund is a special revenue fund used to account for the proceeds of hospitality taxes collected under Article 7 of Title 6 of state law. These funds are required to be utilized for tourism-enhancing expenses.

Victims Assistance Fund - The Victims Assistance Fund is a special revenue fund used to account for required surcharges and assessments on police fines which must be used for the support of victims of crimes.

Police Seized Drug Fund - The Police Seized Drug Fund is a special revenue fund used to account for amounts received from confiscated drug monies. These funds are restricted for various purposes to assist public safety.

*Other Fund Types* - The Town also reports the following fund types:

Agency Funds - The Fire Department 1% Monies account for fiduciary assets held by the Town in a custodial capacity as an agent on behalf of others. The Town's agency funds are used to account for funds earmarked for the benefit of the fire department where control over expenditures is exercised by the fire officers.

### **Measurement Focus and Basis of Accounting**

The financial statements of the Town are prepared in accordance with generally accepted accounting principles (GAAP).

*Government-wide Financial Statements* - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the Town gives (or receives) value without directly receiving (or giving) equal value in exchange, include taxes, licenses, and grants. Revenue from grants is recognized in the fiscal year in which all eligibility requirements have been satisfied.

*Governmental Fund Financial Statements* - Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the accounting period when they are both measurable and available to pay the liabilities of the current period. In addition, expenditures are recorded when the related fund liability is incurred, if measurable, except for certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

The Town has recognized assets of nonexchange transactions in the period when the underlying transaction occurs, when an enforceable legal claim has arisen, or when all eligibility requirements are met. Nonexchange transactions occur when one government provides (or receives) value to (from) another party without receiving (or giving) equal or nearly equal value in return. State shared revenues, federal grants funding federal mandates, and donations are examples of nonexchange

transactions. The Town considers all revenues available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred, except for long-term debt principal and interest which are reported as expenditures in the year due.

Major revenue sources susceptible to accrual include property taxes, franchise fee taxes and intergovernmental revenues.

Under the terms of grant agreements, the Town funds certain programs by a combination of specific cost - reimbursement grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the Town's policy to first apply cost - reimbursement grant resources to such programs and then general revenues.

The Town's spending policy is to use resources in the following hierarchy: bond proceeds, federal funds, state funds, local non-town funds, and town funds. For purposes of fund balance classification, expenditures are to be spent from restricted fund balance first, followed in order by committed fund balance, assigned fund balance, and lastly unassigned fund balance. The Town Council can deviate from this policy if it is in the best interest of the Town.

The government reports deferred inflows of resources on its governmental funds balance sheet. Deferred inflows of resources arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Refundable advances (unearned revenue) may arise when resources are received by the Town before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the Town has a legal claim to the resources, the liability for refundable advances and the deferred inflows of resources are removed from the governmental funds balance sheet and revenue is recognized.

Special reporting treatments are also applied to governmental fund long-term receivables and prepaid expenses to indicate that they do not represent "available spendable resources", even though they are a component of net current assets. Such amounts are generally offset by fund balance nonspendable accounts.

### **Budgets and Budgetary Accounting**

Normally, the budget is legally enacted through the passage of an ordinance prior to October 1. Annual budgets are adopted for the General Fund and Fire District Fund. Unencumbered appropriations for annually budgeted funds lapse at fiscal year-end. The Town Council may amend the legally adopted budget when unexpected modifications are required. The budgets were not amended during the year. The budgets were prepared using the modified accrual basis of accounting.

### **Assets, Liabilities, Deferred Inflows, and Net Position or Equity**

#### **Deposits and Investments**

Statutes authorize the Town to invest in obligations of the United States and its agencies, general obligations (not revenue obligations) of the State of South Carolina and its subdivisions, Savings and Loan Associations to the extent of federal insurance, certificates of deposit collaterally secured, repurchase agreements secured by the foregoing obligations and the State Treasurer's investment pool.

#### **Allowance for Doubtful Accounts**

All receivables that historically experience uncollectible accounts (taxes) are shown net of an allowance for doubtful accounts. This amount is estimated by analyzing the percentage of receivables that were not collected in prior years. Receivables for taxes less applicable allowances for doubtful accounts are reflected in deferred inflows of resources within the fund financial statements because the amount is not considered "available".

## Prepaid Expenses

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

## Capital Assets

The Town's capital assets are recorded at cost or estimated historical costs. Donated capital assets are recorded at their estimated fair value at the date of donation. Capital assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statement.

It is the policy of the Town to capitalize all capital assets costing more than \$1,000 with an estimated useful life of two or more years. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. As allowed by generally accepted accounting principles, the Town has elected not to report general infrastructure assets retroactively.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

	<u>Years</u>
Buildings and improvements	15-40
Land improvements	20
Furniture and equipment	5-20
Vehicles	5-20

## Compensated Absences

Annual Leave - Per the policy manual, employees receive 8 hours of annual leave for each month worked. After 5 years of service, employees accrue 10 hours of annual leave per month. After 10 years of service, employees accrue 12 hours per month. An employee may carry over a maximum of 240 hours annual leave per year.

Sick Leave - Sick leave is accumulated at 4 hours per month with a maximum accumulation of 720 hours. Upon termination of employment, all unused sick leave is lost. No liability has been accrued in these financial statements since it does not vest for payment purposes.

## Encumbrance Accounting

All outstanding encumbrances lapse at yearend and are rebudgeted in the following year.

## Estimates

Management uses estimates and assumptions in preparing these financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were used.

## Net Position/Fund Balances

Net position in the government-wide financial statements is classified as net investment in capital assets, restricted, and unrestricted. Net position is reported as restricted when there are legal limitations imposed on their use by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through state statute.

In the governmental fund financial statements, restricted fund balances represent amounts that cannot be appropriated or are legally segregated for a specific purpose. Committed fund balances represent Council approved plans for the use of funds that are subject to change at Council's option.

The governmental fund type classifies fund balance as follows:

**Restricted**

Restricted for Victims' Assistance Services - Portion of the fund balance available for providing victim services as required by state law Article 15 of Title 16 from assessments collected by the municipal court.

Restricted for Tourism - Portion of the fund balance available for tourism-enhancing expenses as required by state law Article 7 of Title 6 from Hospitality Taxes collected from local merchants on the sale of prepared foods and beverages.

Restricted for Public Safety - Portion of fund balance from confiscated drug money to be expended for public safety.

**Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources, deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the South Carolina Retirement System (SCRS) and Police Officers Retirement System (PORS) and additions to/deductions from SCRS's and PORS's fiduciary net position have been determined on the same basis as they are reported by the South Carolina Public Employee Benefit Authority (PEBA). For this purpose, plan member contributions are recognized in the period in which the contributions are due. The Town's employer contributions are recognized when due and the Town of Campobello has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**NOTE 2 - DEPOSITS**

At yearend, the carrying amount of the Town's deposits was \$636,376 and the bank balance was \$625,806. Of the bank balances \$230,227 was covered by federal depository insurance. A third-party depository holds pledged governmental securities with a market value of \$395,579 in the Town's name as collateral for deposited funds in excess of federal depository insurance limits. The Town has no uncollateralized bank balances at September 30, 2021.

The Town has no policy regarding custodial credit risks for deposits and no formal policy regarding investment decisions and credit risk.

**NOTE 3 – TAXES RECEIVABLE**

Taxes receivable (current and delinquent) represent property and vehicle taxes which have been collected and remitted to Spartanburg County Treasurer's office for its distribution to the Town and taxes due but uncollected net of an allowance for uncollectible. In the governmental fund financial statements taxes receivable are accrued as revenue when they are considered to be both "measurable and available." If not considered available within 60 days of year end, they are recorded as deferred inflows of resources.

In the government-wide financial statements, property taxes receivable, net of an allowance, is shown in revenue of the current period regardless of when cash is received.

The Town's property taxes (except vehicles) are levied by the Spartanburg County Auditor each fall on the assessed valuation of the property located in the Town and the Fire District as of the preceding January 1. The tax books are open for collection September 1, with the first penalty of 3% applied to payments made after January 15, the due date. An additional penalty of 5% is charged for payments made after January 31. Uncollected property taxes attach as an enforceable lien on January 1. Uncollected property taxes as of March 15 are transferred to the Spartanburg County Delinquent Tax Collector at which time an additional 5% penalty is assessed. Spartanburg County bills and collects the Town's property taxes.

At September 30, 2021, the Town's uncollected assessed taxes that have been transferred to the Spartanburg County Delinquent Tax Collector were \$7,128 and \$6,472 for the Town and the Fire District, respectively. These amounts net of allowances for doubtful accounts of \$(3,071) and \$(3,252), respectively and plus vehicle and delinquent taxes of \$9,950 and \$9,456, respectively are shown as taxes receivable in the accompanying statements.

Assessed values for real estate are established annually by the County Tax Assessor based on the assessment ratio applied to the appropriate class of property, Real and personal property, excluding merchant's inventory, in the Town's area for the 2020 tax levy was assessed at \$2,106,344 and \$8,947,048 for the Town and the Fire District, respectively. The Town's operating tax rate is currently 14.8 mills and 24.0 mills for the Town and Fire District, respectively.

**NOTE 4 – CAPITAL ASSETS**

Capital asset activity for the year ended September 30, 2021, was as follows:

	Balance October 1, 2020	Additions	Deletions	Balance September 30, 2021
<b>Governmental activities</b>				
Not being depreciated				
Land	\$ 45,068	\$ -	\$ -	\$ 45,068
Total capital assets, not being depreciated	<u>45,068</u>	<u>-</u>	<u>-</u>	<u>45,068</u>

Vehicles	1,212,219	71,661	43,425	1,240,455
Total accumulated depreciation	<u>1,703,939</u>	<u>115,792</u>	<u>43,425</u>	<u>1,776,306</u>
Total capital assets, being depreciated, net	<u>862,500</u>	<u>(61,051)</u>	<u>-</u>	<u>799,767</u>
Total capital assets, net	<u>\$ 907,568</u>	<u>\$ (61,051)</u>	<u>\$ 1,682</u>	<u>\$ 844,835</u>

Depreciation expense was charged to governmental functions as follows:

General government	\$ 6,240
Public safety	
Police	14,452
Fire	95,100
Total depreciation expense	<u>\$ 115,792</u>

**NOTE 5 – INTERFUND RECEIVABLES AND PAYABLES**

At September 30, 2021, the following interfund receivables and payables are reflected in the governmental fund balance sheet (such amounts are removed in the statement of net assets):

<u>Receivable by</u>	<u>Payable by</u>	<u>Amount</u>
General Fund	Fire District Fund	\$ 109,405
Victim's Assistance Fund	Fire District Fund	841
Local Hospitality Tax Fund	Fire District Fund	17,911
		<u>\$ 128,157</u>

**NOTE 6 – LONG-TERM OBLIGATIONS**

The summary below details the changes in long-term obligations for the Town for the year:

	<u>Balance</u> <u>October 1, 2020</u>	<u>Increases</u>	<u>Decreases</u>	<u>Balance</u> <u>September 30, 2021</u>	<u>Due Within</u> <u>One Year</u>
Capitalized lease obligations	\$ 140,997	\$ 40,691	\$ 44,648	\$ 137,040	\$ 36,061
Compensated absences	32,439	-	10,690	21,749	-
Net pension liability	848,842	-	164,872	683,970	-
Total	<u>\$ 1,022,278</u>	<u>\$ 40,691</u>	<u>\$ 220,210</u>	<u>\$ 842,759</u>	<u>\$ 36,061</u>

The following details are changes in capital lease obligations for the year:

	Payable at September 30, 2020	Additions	Reductions	Payable at September 30, 2021
Lease purchase of \$33,143 payable in monthly installments of \$993 through February 2023, including interest at 5.29%, collateralized by 2020 Tahoe (current principal of \$10,812)	\$ 27,081	\$ -	\$ 11,188	\$ 15,893
Lease purchase of \$33,782 payable in monthly installments of \$654 through April 2023, including interest of 5.99%, collateralized by 2017 Chevrolet Silverado with a cost of \$33,422. (Current principal of \$6,918)	18,192	-	18,192	-
Lease purchase of \$34,422 payable in monthly installments of \$818 through June 2023, including interest at 6.49%, collateralized by 2017 Chevrolet Silverado with a cost of \$34,422. (Current principal of \$8,468)	24,672	-	8,485	16,187
Lease purchase of \$80,000 payable in annual installments of \$19,789 through October 2028 including interest at 3.75%, collateralized by a 4 Bay Fire Station with a cost of \$80,000. (current principal of \$6,783)	71,052	-	6,783	64,629
Lease purchase of \$40,691 payable in monthly in monthly installments of \$964, beginning in November 2021, through October 2025, including interest of 6.29%	-	40,691	-	40,691
Total lease obligations payable	<u>\$ 140,997</u>	<u>\$ 40,691</u>	<u>\$ 44,648</u>	<u>\$ 137,040</u>

The following is a summary of the Town's future annual debt service requirements:

Year Ended September 30,	Principal	Interest	Total
2022	\$ 36,061	\$ 5,725	\$ 41,786
2023	29,458	3,883	33,341
2024	18,303	2,707	21,010
2025	19,274	1,736	21,010
2026	9,417	994	10,411
2027-2028	24,527	2,079	26,606
Total	<u>\$ 137,040</u>	<u>\$ 17,124</u>	<u>\$ 154,164</u>

Interest and expenses on long-term debt totaled \$23,193 for the year ended September 30, 2021. The Town has utilized resources of the General Fund and Fire District Fund to pay debt service costs in the current year.

## **NOTE 7 – RESTRICTED FUND BALANCES**

Restrictions of fund equity show amounts that are not appropriate for expenditure or are legally restricted for specific purposes. Generally, the purpose for each is indicated by the account title on the face of the balance sheet.

## **NOTE 8 – RETIREMENT**

The South Carolina Public Employee Benefit Authority (PEBA), created July 1, 2012 and governed by an 11-member Board, is the state agency responsible for the administration and management of the various Retirement Systems and retirement programs of the state of South Carolina, including the State Optional Retirement Program and the S.C. Deferred Compensation Program, as well as the state's employee insurance programs. As such, PEBA is responsible for administering the South Carolina retirement Systems' five defined benefit pension plans. The Retirement Funding and Administration Act of 2017, which became effective July 1, 2017, increased the employer and employee contribution rates, established a ceiling on the SCRS and PORS employee contribution rates, lowered the assumed rate of return, required a scheduled reduction of the funding periods, and addressed various governance issues including the assignment of the PEBA Board as custodian of the retirement trust funds and assignment of the RSIC and PEBA as co-trustees of the assets of the retirement trust funds. By law, the State Fiscal Accountability Authority (SFAA), which consists of five elected officials, also reviews certain PEBA Board decisions regarding the actuary of the Systems.

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Systems and additions to/deductions from the Systems fiduciary net position have been determined on the accrual basis of accounting as they are reported by the Systems in accordance with generally accepted accounting principles (GAAP). For this purpose, revenues are recognized when earned and expenses are recognized when incurred. Benefit and refund expenses are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

PEBA issues a Comprehensive Annual Financial Report (CAFR) containing financial statements and required supplementary information for the Systems' Pension Trust Funds. The CAFR is publicly available through the Retirement Benefits' link on PEBA's website at [www.peba.sc.gov](http://www.peba.sc.gov), or a copy may be obtained by submitting a request to PEBA, 202 Arbor Lake Drive, Columbia, SC 29223. PEBA is considered a division of the primary government of the state of South Carolina and therefore, retirement trust fund financial information is also included in the comprehensive annual financial report of the state.

### **Plan Descriptions**

- The South Carolina Retirement System (SCRS), a cost-sharing multiple-employer defined benefit pension plan, was established effective July 1, 1945, pursuant to the provisions of Section 9-1-20 of the South Carolina Code of Laws for the purpose of providing retirement allowances and other benefits for teachers and employees of the state and its political subdivisions. SCRS covers employees of state agencies, public school districts, higher education institutions, other participating local subdivision of government and individuals newly elected to the South Carolina General Assembly at or after the 2012 general election.
- The State Optional Retirement Program (State ORP) is a defined contribution plan that is offered as an alternative to SCRS to certain newly hired employees of state agencies, institutions of higher education, public school districts and individuals first elected to the General Assembly at or after the general election in November 2012. State ORP participants direct the investment of their funds into an account administered by one of four third party record keepers.

- The South Carolina Police Officers Retirement System (PORS), a cost-sharing multiple-employer benefit pension plan, was established July 1, 1962, pursuant to the provisions of Sections 9-11-20 of the South Carolina Code of Laws for the purpose of providing retirement and other benefits to police officers and firefighters. PORS also covers peace officers, coroners, probate judges and magistrates.

In addition to the plans described above, PEBA also administers three single-employer defined benefit pension plans, which are not covered in this report. They are the Retirement System for Members of the General Assembly of the State of South Carolina (GARS), the Retirement System for judges and Solicitors of the State of South Carolina (JSRS), and the South Carolina National Guard Supplemental Retirement Plan (SCNG).

## **Membership**

Membership requirements are prescribed in Title 9 of the South Carolina Code of Laws. A brief summary of the requirements under each system is presented below.

- SCRS – Generally, all employees of covered employers are required to participate in and contribute to the system as a condition of employment. This plan covers general employees and teachers and individuals newly elected to the South Carolina General Assembly beginning with the November 2012 general election. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.
- State ORP – As an alternative to membership in SCRS, newly hired state, public school, and higher education employees and individuals newly elected to the S.C. General Assembly beginning with the November 2012 general election have the option to participate in the State ORP. PEBA assumes no liability for State ORP benefits. Rather, the benefits are the liability of the four third party record keepers. For this reason, State ORP assets are not part of the retirement systems’ trust funds for financial statement purposes. Contributions to the State ORP are at the same rates as SCRS. A direct remittance is required from the employer to the member’s account with the ORP vendor for the employee contribution and a portion of the employer contribution (5 percent). A direct remittance is also required to SCRS for the remaining portion of the employer contribution and an incidental death benefit contribution, if applicable, which is retained by SCRS.
- PORS – To be eligible for PORS membership, an employee must be required by the terms of his employment, by election or appointment, to preserve public order, protect life and property, and detect crimes in the state; to prevent and control property destruction by fire; or the Department of Mental Health. Probate judges and coroners may elect membership in PORS. Magistrates are required to participate in PORS for service as a magistrate. PORS members, other than magistrates and probate judges, must also earn at least \$2,000 per year and devote at least 1,600 hours per year to this work, unless exempted by statute. An employee member of the system with an effective membership prior to July 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.

## **Benefits**

Benefit terms are prescribed in Title 9 of the South Carolina Code of Laws. PEBA does not have the authority to establish or amend benefit terms without a legislative change in the code of laws. Key

elements of the benefit calculation include the benefit multiplier, years of service, and average final compensation/current annual salary. A brief summary for the benefit terms for each system is presented below.

- SCRS – A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 65 or with 28 years credited service regardless of age. A member may elect early retirement with reduced pension benefits payable at age 55 with 25 years of service credit. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension upon satisfying the Rule of 90 requirement that the total of the member’s age and the member’s creditable service equals at least 90 years. Both Class Two and Class three members are eligible to receive a reduced deferred annuity at age 60 if they satisfy the five- or eight-year earned service requirements, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program.

The annual retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase. Members who retire under the early retirement provisions at age 55 with 25 years of service are not eligible for the benefit adjustment until the July 1 after reaching age 60 or the second July 1 after the date they would have had 28 years of service credit had they not retired.

- PORS – A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 55 or with 25 years of service regardless of age. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension at age 55 or with 27 years of service regardless of age. Both Class Two and Class Three members are eligible to receive a deferred annuity at age 55 with five or eight years of earned service, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program. Accidental death benefits are also provided upon the death of an active member working for a covered employer whose death was a natural and proximate result of an injury incurred while in the performance of duty.

The retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July of the preceding year are eligible to receive the increase.

## **Contributions**

Contributions are prescribed in Title 9 of the South Carolina Code of Laws. If the scheduled employee and employer contributions provided in statute, or the rates last adopted by the board, are insufficient to maintain the amortization period set in statute, the board shall increase employer contribution rates as necessary.

After June 30, 2027, if the most recent annual actuarial valuation of the Systems for funding purposes shows a ratio of the actuarial value of system assets to the actuarial accrued liability of the system (the funded ratio) that is equal to or greater than eighty-five percent, then the board, effective on the following July first, may decrease the then current contribution rates upon making a finding that the decrease will not result in a funded ratio of less than eighty-five percent. If contribution rates are decreased pursuant to this provision, and the most recent annual actuarial valuation of the system shows a funded ratio of less than eighty-five percent, then effective on the following July first, and annually thereafter as necessary, the board shall increase the then current contribution rates until a subsequent annual actuarial valuation of the system shows a funded ratio that is equal to or greater than eighty-five percent.

The Retirement System Funding and Administration Act establishes a ceiling on employee contribution rates at 9 percent and 9.75 percent for SCRS and PORS respectively. The employer contribution rates will continue to increase annually by 1 percent through July 1, 2022. The legislation’s ultimate scheduled employer rates is 18.56 percent for SCRS and 21.24 percent for PORS. The amortization period is scheduled to be reduced one year for each of the next 10 years to a twenty year amortization period.

Required employer contribution rates are as follows:

	<u>Fiscal Year 2021<sup>1</sup></u>	<u>Fiscal Year 2020<sup>1</sup></u>
<b>SCRS</b>		
Employee Class Two	9.00%	9.00%
Employee Class Three	9.00%	9.00%
<b>State ORP</b>		
Employee	9.00%	9.00%
<b>PORS</b>		
Employee Class Two	9.75%	9.75%
Employee Class Three	9.75%	9.75%

Required employer contribution rates are as follows:

	<u>Fiscal Year 2021<sup>1</sup></u>	<u>Fiscal Year 2020<sup>1</sup></u>
<b>SCRS</b>		
Employee Class Two	15.41%	14.41%
Employee Class Three	15.41%	14.41%
Employer Incidental Death Benefit	0.15%	0.15%
<b>State ORP</b>		
Employer Contribution (2)	15.41%	14.41%
Employer Incidental Death Benefit	0.15%	0.15%
<b>PORS</b>		
Employee Class Two	17.84%	16.84%
Employee Class Three	17.84%	16.84%
Employer Incidental Death Benefit	0.20%	0.20%
Employer Accidental Death Program	0.20%	0.20%

(1) Calculated on earnable compensation as defined in Title 9 of the South Carolina Code of Laws.

(2) Of this employer contribution, 5% of earnable compensation must be remitted by the employer directly to the ORP vendor to be allocated to the member’s account with the remainder of the employer contribution remitted to the SCRS.

## Actuarial Assumptions and Methods

Actuarial valuations of the ongoing plan involve estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and future salary increases. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. South Carolina state statute requires that an actuarial experience study be completed at least once in each five-year period. An experience report on the Systems was most recently issued as of June 30, 2019.

The June 30, 2019, total pension liability (TPL), net pension liability (NPL), and sensitive information shown in this report were determined by our consulting actuary, Gabriel, Roeder, Smith and Company (GRS) and are based on an actuarial valuation performed as of July 1, 2019. The total pension liability was rolled-forward from the valuation date to the plans' fiscal year end, June 30, 2020, using generally accepted actuarial principles. The Retirement System Funding and Administration Act of 2017 was signed into law April 25, 2017, and included a provision to reduce the assumed rate of return from 7.50% to 7.25% effective July 1, 2017. As a result of this legislation, GRS made an adjustment to the calculation of the roll-forward total pension liability for this assumption change as of the measurement date of June 30, 2020.

The following table provides a summary of the actuarial assumptions and methods used to calculate the TPL as of June 30, 2020:

	SCRS	PORS
Actuarial Cost Method	Entry age normal	Entry age normal
Investment rate of return <sup>1</sup>	7.25%	7.25%
Projected salary increases	3.0% to 12.5% (varies by service) <sup>1</sup>	3.5% to 9.5% (varies by service) <sup>1</sup>
Benefit adjustments	Lesser of 1% or \$500 annually	Lesser of 1% or \$500 annually
<sup>1</sup> Includes inflation at 2.25%		

The post-retiree mortality assumption is dependent upon the member's job category and gender. The base mortality assumption, the 2016 Public Retirees of South Carolina Mortality table (2016 PRSC), was developed using the Systems' mortality experience. These base rates are adjusted for future improvement in mortality using published Scale AA projected from the year 2016.

Assumptions used in the determination of the June 30, 2020, TPL are as follows.

Former Job Class	Males	Females
Educators	2016 PRSC Males multiplied by 92%	2016 PRSC Females multiplied by 98%
General Employees and Members of the General Assembly	2016 PRSC Males multiplied by 100%	2016 PRSC Females multiplied by 111%
Public Safety and Firefighters	2016 PRSC Males multiplied by 125%	2016 PRSC Females multiplied by 111%

At September 30, 2021, the Town reported a liability of \$683,970 for its proportionate share of the net pension liability. The net pension liability was measured as of September 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined.

For the year ended September 30, 2021, The Town recognized pension expense totaling \$62,979, which consisted of contributions to the system and decreases in expense as a result of the increase in the net pension liability related to GASB 68 requirements. At September 30, 2021, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	SCRS		PORS	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,137	\$ 90	\$ 20,998	\$ 1,922
Changes of assumptions	3,653	-	44,024	-
Net difference between projected and actual earnings on pension plan investments	-	9,695	-	138,380
Changes in proportionate share and differences between Town contributions and proportionate share of total employer plan contributions	14,363	279	90,846	-
Town contributions subsequent to the measurement date	1,562	-	22,454	-
<b>Total</b>	<b>\$ 20,715</b>	<b>\$ 10,064</b>	<b>\$ 178,322</b>	<b>\$ 140,302</b>

\$24,016 reported as deferred outflows of resources related to pensions resulting from Town contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended September 30, 2022.

The following schedule reflects the amortization of the net balance of remaining deferred outflows/(inflows) of resources at the measurement date. Average remaining service lives of all employees provided with pensions through the pension plan at the measurement date was 4.080 years for SCRS and PORS.

Measurement Period	SCRS	PORS	Total
Ending September 30,			
2022	\$ 6,502	\$ 77,897	\$ 84,399
2023	6,374	49,008	55,382
2024	1,374	23,310	24,684
Thereafter	-	-	-
<b>Net Balance of Deferred Outflow/(Inflow) of Resources</b>	<b>\$ 14,250</b>	<b>\$ 150,215</b>	<b>\$ 164,465</b>

### Discount Rate

The discount rate used to measure the TPL was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers in SCRS and PORS will be made based on the actuarially determined rates based on provisions in the South Carolina Code of Laws. Based on those assumptions, the Systems' fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL.

## Net Pension Liability

The NPL is calculated separately for each system and represents that particular system's TPL determined in accordance with GASB No. 67 less that System's fiduciary net position. NPL totals, as of June 30, 2019, for SCRS and PORS are presented below.

System	Total Pension Liability	Plan Fiduciary Net Position	Employers' Net Position Liability (Asset)	Plan Fiduciary Net Position as a Percentage of the Total Pension Liability
SCRS	\$ 55,131,579,363	\$ 33,490,305,970	\$ 21,641,273,393	60.7%
PORS	8,046,386,629	6,111,672,064	2,572,914,424	70.4%

The TPL is calculated by the Systems' actuary, and each plan's fiduciary net position is reported in the Systems' financial statements. The NPL is disclosed in accordance with the requirements of GASB 67 in the Systems' notes to the financial statements and required supplementary information. Liability calculations performed by the Systems' actuary for the purpose of satisfying the requirements of GASB Nos. 67 and 68 are not applicable for other purposes, such as determining the plans' funding requirements.

## Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments is based upon the 20-year capital markets assumptions. The long-term expected rate of returns represent assumptions developed using an arithmetic building block approach, primarily based on consensus expectations and market based inputs. Expected returns are net of investment fees.

The expected returns, along with the expected inflation rate, form the basis for the target asset allocation adopted at the beginning of the 2020 fiscal year. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and adding expected inflation and is summarized in the table on the following page. For actuarial purposes, the 7.25 percent assumed annual investment rate of return and used in the calculation of the TPL includes a 5.00 percent real rate of return and a 2.25 percent inflation component.

<u>Asset Class</u>	<u>Policy Target</u>	<u>Expected Arithmetic Real Rate of Return</u>	<u>Long-term Expected Portfolio Real Rate of Return</u>
<b>Global Equity</b>	<b>51.0%</b>		
Global Public Equity	35.0%	7.81%	2.73%
Private Equity	9.0%	8.91%	0.80%
Equity Options Strategies	7.0%	5.09%	0.36%
<b>Real Assets</b>	<b>12.0%</b>		
Real Estate (Private)	8.0%	5.55%	0.44%
Real Estate (REITs)	1.0%	7.78%	0.08%
Infrastructure (Private)	2.0%	4.88%	0.10%
Infrastructure (Public)	1.0%	7.05%	0.07%
<b>Opportunistic</b>	<b>8.0%</b>		
Global Tactical Asset Allocation	7.0%	3.56%	0.25%
Other Opportunistic Strategies	1.0%	4.41%	0.04%
<b>Credit</b>	<b>15.0%</b>		
High Yield Bonds/Bank Loans	4.0%	4.21%	0.17%
Emerging Markets Debt	4.0%	3.44%	0.14%
Private Debt	7.0%	5.79%	0.40%
<b>Rate Sensitivity</b>	<b>14.0%</b>		
Core Fixed Income	13.0%	1.60%	0.21%
Cash and Short Duration (Net)	1.0%	0.56%	0.01%
Total Expected Real Return	100.0%		5.80%
Inflation for Actuarial Purposes			2.25%
			8.05%

### Sensitivity Analysis

The following table presents the collective NPL of the participating employers calculated using the discount rate of 7.25 percent, as well as what the employers' NPL would be if it were calculated using a discount rate that is 1.00 percent lower (6.25 percent) or 1.00 percent higher (8.25 percent) than the current rate.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

System	1.00% Decrease (6.25%)	Current Discount Rate (7.25%)	1.00% Increase (8.25%)
SCRS	\$ 87,421	\$ 66,740	\$ 49,549
PORS	\$ 895,522	\$ 617,230	\$ 389,267

### Pension Plan Fiduciary Net Position

Detailed information regarding the fiduciary net position of the plans administered by PEBA is available in the separately issued CAFR containing financial statements and required supplementary information for SCRS and PORS. The CAFR of the Pension Trust Funds is publicly available on PEBA's Retirement Benefits' website at [www.retirement.sc.gov](http://www.retirement.sc.gov), or a copy may be obtained by submitting a request to PEBA, PO Box 11960, Columbia, SC 29211-1960.

## **NOTE 9 – RISK MANAGEMENT**

The Town is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors or omissions, injuries to employees, and natural disasters. The Town contracted with South Carolina Municipal Insurance and Risk Financing Fund to cover risks of loss and pay claims for covered losses relating to auto comprehensive, collision and liability, buildings and personal property including bodily injury, general tort liability claims, public official liability, and police professional liability. Fire department buildings, business auto and tort liability are provided through commercial carriers, and volunteer accident, life and health insurance are contracted through National Union Fire Insurance Company.

The Town also pays premiums to South Carolina Municipal Insurance Trust for workers' compensation insurance coverage up to the statutory limits.

There were no significant reductions in insurance coverage from the prior year and no settlements exceeding coverage for the past three years.

## **NOTE 10 – TAX ABATEMENTS**

Spartanburg County utilizes an economic development program to attract businesses and industry to the County for purposes of expanding and diversifying the local economy and creating jobs. The two mechanisms that the County employs are Fee in Lieu of Tax agreements and Special Source Revenue Credits. For the 2020 tax assessment, abatements from Fee in Lieu of Tax agreements totaled \$407 for the Fire District and \$510 for the Town.

TOWN OF CAMPOBELLO

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION  
YEAR ENDED SEPTEMBER 30, 2021

**Method and Assumptions Used in Calculations of Actuarially Determined Contributions:** The actuarially determined contribution rates in the schedule of contributions are calculated as of September 30, 2019, one year prior to the end of the fiscal year in which contributions are reported. The actuarial methods and assumptions used to determine the contractually required contributions for the year ended September 30, 2020 reported in that schedule can be found in Note 8 of the basic financial statements.
