

TOWN OF CAMPOBELLO

Council Meeting – Budget Work Session Minutes

July 16, 2026

The Work Session meeting of the Campobello Town Council was called to order by Mayor Aaron Ash on July 16, 2026, at 6:00 p.m. located at 50 Broad St., Campobello, SC. Council Members present were Reitha Stevenson, Alician Sprouse, Lance Kaminer and Joe McDowell. Also, in attendance was Police Chief, Chad McNeill, Lt. Chris Miller, Fire Chief Brandon McNeill and Trey Eubanks.

1. NEW BUSINESS

Budget Development

Town staff provided Council with the current fiscal year budget, account balances, and investment information, including Local Government Investment Pool (LGIP) accounts. Mayor Ash explained that the goal is to present the first reading of the budget at the August Council meeting and the second and final reading in September, prior to the start of the Town's fiscal year on October 1st.

Trey advised Council that two key pieces of information remain outstanding: the Town's annual audit and updated property tax revenue projections from Spartanburg County. Both items are important for accurately forecasting revenues and expenditures. Staff noted that delays in receiving the annual audit have occurred for several consecutive years and suggested that Council consider issuing a Request for Proposals (RFP) for auditing services later this year.

Department heads have begun preparing budget requests, and staff will work with them to develop a proposed budget for Council review. Council discussed holding an additional budget workshop or extended work session prior to the August meeting to review the proposed budget line-by-line and discuss any significant changes.

Mayor Ash emphasized the importance of maintaining responsible stewardship of taxpayer dollars while continuing to provide services and support community programs. Council also noted positive revenue trends from baseball field operations and recognized the success of the Town's LGIP investments.

Financial Reporting and Technology

Council discussed implementing monthly budget reports showing budgeted amounts, expenditures, and remaining balances for each line item. Staff agreed to begin providing more detailed financial reports to assist Council with monitoring expenditures throughout the year.

Council reviewed the Town's current use of Google Workspace and discussed the need to meet CJIS security compliance requirements. Staff reported that upgrading Google's services would significantly increase costs and that Microsoft Office 365 and OneDrive are being explored as alternatives that may provide improved security and functionality at a comparable cost.

Additional technology needs discussed included replacing computers that are unable to support Windows 11 and upgrading the Town's firewall and cybersecurity infrastructure. Staff will evaluate whether some of these expenses can be addressed before the close of the current fiscal year.

Fire Department Report and Funding Needs

Fire Chief Brandon McNeill discussed the increasing costs of fire apparatus and equipment. He reported that the department's primary response engine is more than 20 years old and that a replacement engine could cost nearly \$1 million compared to approximately \$350,000 when the current apparatus was purchased in 2002.

Chief McNeill outlined staffing challenges facing volunteer fire departments nationwide, noting that Campobello continues to benefit from strong volunteer support but is experiencing the same difficulties in recruiting younger volunteers. He explained that fire suppression operations require minimum staffing levels for firefighter safety and that medical emergencies often require multiple responders.

Chief McNeill advised Council that he intends to discuss a potential fire district millage increase with Spartanburg County officials following upcoming elections to help address future apparatus, equipment, and staffing needs. Council expressed support for the Fire Department and acknowledged the significant services being provided with limited resources.

Council also discussed recruitment and retention challenges affecting both fire and police departments, noting that surrounding jurisdictions offer significantly higher salaries than those currently available in Campobello. The Police and Fire Chiefs brought up the benefits of a take-home vehicle for officers. It was mentioned that assigned vehicles encourage accountability, reduce damage and maintenance issues, and provide employees with a mobile workspace that supports daily operations and emergency response readiness.

Community Development and Economic Opportunities

Council discussed the possibility of utilizing the Old Mill Village property for future Town-sponsored events should ongoing discussions of annexation regarding the property be successful. It was noted that future agreements could potentially include provisions allowing the Town to utilize the property for community events at reduced rates.

Discussion also focused on the vacant former gas station property on Asheville Highway near Town limits. Mayor Ash noted that conversations with the property owner continue and that several individuals have expressed interest in opening a restaurant at the location. Members agreed that attracting additional dining and commercial opportunities remains a priority for the community.

Police Department Budget Item

Council Member Stevenson requested clarification regarding the "Police Protection - Games" budget line item. Staff explained that the account is used to record reimbursements received when organizations request additional law enforcement services for athletic events, school functions, and other special events requiring officer presence.

Facility Rental Fees

Council discussed the use of the Fire Department training room and other Town facilities by outside organizations. Members expressed concern that utility and maintenance costs associated with these uses are being absorbed by Town budgets without reimbursement.

Council reviewed the possibility of establishing a formal fee structure for use of meeting rooms and other facilities, similar to existing rental fees charged for the pavilion and baseball fields. Staff was asked to research comparable fees used by neighboring municipalities and provide recommendations for future consideration.

Audit Services RFP

Council discussed concerns regarding recurring delays in completion of the Town's annual audit. Members agreed that it may be beneficial to issue a Request for Proposals for auditing services later in the year, with October identified as a potential timeframe.

Staff advised that a draft RFP can be prepared and presented to Council for review. Several auditing firms will be contacted and encouraged to submit proposals. Council noted that the current auditing firm would be welcome to participate in the process, but emphasized the importance of evaluating all available options to ensure timely and effective service.

2. OLD BUSINESS

None

3. OTHER BUSINESS:

None.

4. ADJOURNED on July 16, 2026 at 6:43 p.m.

With no further business presented, Council Member Kaminer made a motion to adjourn, seconded by Council Member McDowell and carried unanimously.

Town of Campobello Council Minutes were recorded by Town Clerk, Kim Hyder, on this 16th day of July, 2026.

TOWN OF CAMPOBELLO

Council Meeting – Work Session Minutes

July 13, 2026

The Work Session meeting of the Campobello Town Council was called to order by Mayor Aaron Ash on July 13, 2026, at 6:45 p.m. located at 50 Broad St., Campobello, SC. Council Members present were Reitha Stevenson, Alician Sprouse, Lance Kaminer and Joe McDowell. Also, in attendance was Police Chief, Chad McNeill, Lt. Chris Miller and Fire Chief Brandon McNeill.

2. NEW BUSINESS

ATV Ordinance Discussion

Council discussed the recently enacted ATV legislation and agreed to take no immediate action until additional guidance is received from the State regarding implementation requirements.

Discussion included:

- Waiting for clarification on whether the State will issue license plates or decals/stickers for ATVs.
- Considering development of a local decal program and fee structure in the future.
- Potentially revisiting the matter in August or September once more information is available.

Sidewalk and Crosswalk Discussion

Council discussed a proposed sidewalk and crosswalk location near Hybrid HyperSport.

Key points included:

- The location would improve accessibility and pedestrian safety.
- Several local business employees regularly walk to the Post Office, making the crosswalk beneficial for daily pedestrian traffic.
- Staff reported contact with a contractor regarding the project and are awaiting a follow-up meeting to discuss the site.

Pacolet River Cleanup Discussion

Council revisited ongoing discussions regarding cleanup efforts along the Pacolet River.

Updates included:

- Mayor Ash recently received communication from Josiah regarding progress on the project.
- A connection has been established with a liaison in Washington to assist in coordinating with the National Guard.
- Photographs and supporting documentation are being assembled to illustrate existing conditions and concerns.
- Council discussed including local drainage issues as part of the overall project documentation.
- Efforts will continue to seek assistance, potential funding opportunities, and support for cleanup and drainage improvements.

During further discussion of the Pacolet River cleanup initiative, Council received additional information regarding potential resources that may assist with the project. Ryan Barrick of Covalen, Inc., noted that representatives from Upstate Forever may be aware of funding opportunities and grant programs related to watershed studies and river restoration efforts. It was also mentioned that previous studies involving the Pacolet River watershed may provide access to existing resources or funding that could support cleanup and drainage improvement projects within the Town. Council agreed that exploring these opportunities could be beneficial and discussed obtaining additional information from Upstate Forever and other organizations involved in watershed management and environmental restoration.

Traffic Study – Highways 176 and 357 Intersection

Council discussed a forthcoming traffic study at the intersection of Highways 176 and 357 near the Dan Mock building.

Updates included:

- SCDOT plans to conduct a new traffic study in September 2026 to evaluate traffic volume and conditions at the intersection.
- The study will collect data on vehicle traffic and intersection usage during a designated period.
- Officials indicated that the timing of the study was intentionally scheduled for when after school resumes to ensure more accurate traffic data reflective of normal traffic patterns.
- Council will review the results of the study with SCDOT in October and discuss potential improvements for the intersection.

Discussion noted increased traffic volumes, population growth, and the future rail trail project have renewed interest in improving traffic control measures at the location. SCDOT has indicated a commitment to implementing an improvement at the intersection, although the specific solution has not yet been determined. Council expressed concerns that a flashing caution light alone would not adequately address traffic and safety concerns. Traffic incidents occur periodically, with some members noting seasonal variations and visibility concerns caused by sun glare during certain times of the year. The location of nearby structures and sight-distance limitations were also identified as contributing factors for motorists entering the intersection.

Council Member Stevenson inquired whether the traffic study would include the intersection of Highway 11 and Highway 176. Staff clarified that the current study is limited to the Highway 176 and Highway 357 intersection but stated that a separate request could be made to evaluate traffic conditions at Highway 11 and Highway 176. There are ongoing concerns regarding traffic backups at the Highway 11 and Highway 176 intersection. Police Chief McNeill noted previous issues involving traffic signal sensors and expressed concern that vehicle queues may still be occurring during peak travel periods. Additional observation and data collection were encouraged, particularly once school is back in session, to determine whether further action or communication with SCDOT is necessary.

2. OLD BUSINESS

National Night Out Planning Update

Council received an update on preparations for the upcoming National Night Out event which included:

- Planning is progressing well, with most requested school supply items already sponsored or committed by local businesses and community partners.
- The remaining needs include over-ear headphones and binders.
- Organizers reported that schools and teachers prefer over-ear headphones rather than earbuds due to durability concerns and improved functionality during computer-based testing.
- The estimated sponsorship cost for the headphones is approximately \$1,000.
- The estimated sponsorship cost for the binders is approximately \$300–\$400.
- Event signage has been installed and preparations continue to move forward.
- Many of the same community partners who participated last year are expected to participate again this year.

Council discussed contingency plans in the event of inclement weather. Staff will coordinate with Campobello First Baptist regarding a backup location if the event cannot be held at the park.

Promotion of Town Businesses and Community Partnerships

Council discussed continuing efforts to promote local businesses and strengthen partnerships throughout the community.

Discussion included:

- Plans to host another Business Expo, tentatively scheduled for September 2026, following the success of the Town's first business-focused event.
- Interest in expanding participation to include local churches and community organizations.
- The goal of a combined meeting would be to review community event calendars, improve coordination, and identify opportunities for collaborative events and programs.
- Council expressed interest in developing stronger partnerships among businesses, churches, and community groups to support future town initiatives and activities.

Additional discussion involved a local recovery program information sheet that could be shared with churches and community leaders. Council members indicated a willingness to distribute information and discuss the program during upcoming meetings with local church representatives.

Gosnell Park Improvements Update

Council received an update on the ongoing improvement project at Gosnell Park. The project included:

- Concrete for the new steps was poured on Friday, and construction crews have continued working to complete the project.
- Retaining wall construction is nearing completion, including replacement of a deteriorating wall that was previously at risk of collapse.
- Trash cans and related park amenities are scheduled to be installed once the concrete has fully cured.
- The project remains on track for substantial completion in two weeks, weather permitting.
- Staff reported that recent rain and extreme heat conditions have caused minor delays, placing the contractor approximately two days behind schedule.

Additional discussion clarified:

- Existing steps that had become unstable and were deteriorating have been removed.
- The affected area will be graded, reseeded, and covered with straw following completion of construction activities.
- Drainage improvements associated with the project are also being addressed as part of the final work.

Council noted that the goal is to fully complete the project and close out the grant before the PARD grant expiration date in August 2026.

3. OTHER BUSINESS:

None.

4. ADJOURNED on July 13, 2026 at 6:55 p.m.

With no further business presented, Council Member Stevenson made a motion to adjourn, seconded by Council Member Sprouse and carried unanimously.

Town of Campobello Council Minutes were recorded by Town Clerk, Kim Hyder, on this 13th day of July, 2026.

TOWN OF CAMPOBELLO
Council Meeting – Regular Meeting Minutes
July 13, 2026

The Council meeting of the Campobello Town Council was called to order by Mayor Aaron Ash on July 13, 2026, at 7:00 p.m. located at 50 Broad St., Campobello, SC. Council Members present were Reitha Stevenson, Alician Sprouse, Lance Kaminer and Joe McDowell. Also, in attendance was Police Chief, Chad McNeill, Lt. Chris Miller and Fire Chief Brandon McNeill.

1. The Invocation was done by Pastor Lynn Stewart of Oak Grove Baptist Church. Afterwards, the Pledge of Allegiance said followed by the introduction of Council.
2. Mayor Ash asked if Council had reviewed the June 8, 2026 work session minutes and June 8, 2026 council meeting minutes. Motion was made by Council Member Stevenson accept the June 8, 2026 work session minutes and June 8, 2026 council meeting minutes, as written, which was seconded by Council Member Kaminer and unanimously approved.

4. Mayor's Comments

Mayor Ash thanked local businesses, community partners, the police and fire departments, council members, town employees, and volunteers for their contribution to the success of the Town's 250th celebration. He noted that the event was well attended and received positive feedback from residents and visitors. Particular appreciation was expressed for creating a family-friendly event that provided activities for children and an opportunity for community members to gather and socialize.

5. POLICE DEPT:

Police Chief Chad McNeill presented the Police Department report for the month.

Reported activity included:

- 76 calls for service.
- School Resource Officer (SRO) visits and follow-up activities in preparation for the upcoming school year.
- Five motor vehicle accidents involving injuries.
- Four motor vehicle accidents without injuries.
- Approximately 25 citations issued during the reporting period.
- No drug-related charges reported during the month.
- The majority of violations involved insurance-related offenses and driver's license violations.

Council was advised that a recent traffic checkpoint resulted primarily in insurance and license violations, with no drug-related arrests reported.

National Night Out Update

Police Chief Chad McNeill and Lt. Miller provided an update on preparations for National Night Out.

Discussion included:

- Encouraging residents, Council members, and community partners to share event information through social media platforms.
- Feedback from previous events indicated that social media was the primary source through which attendees learned about National Night Out.
- Strong participation is anticipated from local churches, businesses, community organizations, and public safety agencies.
- The Campobello Fire Department will again assist with food preparation and event support.

Lt. Miller reported that Campobello's event was intentionally scheduled one week before the traditional National Night Out date to provide families with school supplies prior to the start of the school year. National Night Out is traditionally held on the first Tuesday in August. Nearby communities, including Inman, Duncan, and Greer, are expected to hold their events on August 4, 2026.

Council members discussed the positive community atmosphere created by National Night Out and the opportunity it provides for residents, churches, businesses, and public safety personnel to interact in a welcoming environment.

Mayor Ash asked if the council had any further questions for the Police Department. No further questions were asked.

FIRE DEPT:

Fire Chief Brandon McNeill presented the Fire Department report for the month of June 2026.

The Fire Department responded to a total of 27 calls for service, including:

- 4 motor vehicle accidents
- 3 fire alarms
- 1 citizen assist
- 2 brush fires
- 1 gas leak
- 1 power lines down incident
- 7 structure fires
- 1 smoke investigation
- 3 vehicle fires

Call distribution included:

- 12 calls within the Town of Campobello
- 9 calls within the Fire Service District
- 6 calls assisting neighboring agencies

Fire Chief McNeill also provided an update on the department's federal grant application for self-contained breathing apparatus (SCBA) air packs. The department is still awaiting notification regarding the grant award and expects to receive a determination within the next month to month and a half.

Brush Truck Acquisition

Fire Chief McNeill reported that the department's recently acquired brush truck is now in service, with only a few minor items remaining to be completed. Discussion included:

- The truck was acquired and outfitted through a collaborative effort involving the South Carolina Parks, Recreation and Tourism Commission and departmental resources.
- As of the meeting date, the department had invested less than \$3,000 into the vehicle, including equipment and modifications.
- Council members noted the significant value of the acquisition, comparing it to the cost of a newly purchased brush truck, which can exceed \$250,000.

Council commended the Fire Department for obtaining and placing the vehicle into service at a minimal cost to the Town.

Mayor Ash asked if the council had any further questions for the Fire Department. No further questions were asked.

Planning & Zoning Report

Planning & Zoning Chairman, Dawn Ford, reported that there was little activity during the reporting period.

The Committee's last two scheduled meetings were canceled due to a lack of agenda items and no pending business requiring review.

Staff reported that the next Planning and Zoning Committee meeting is scheduled for **Tuesday, July 21, 2026, at 12:30 p.m.**

At the time of the report, the anticipated agenda included:

- Review of a building permit application for a carport on Lanford Street.
- Review of a plat approval request for property located off John High Road.

Discussion regarding the John High Road property indicated that the applicant is seeking to subdivide an existing parcel into additional lots. Staff reported that survey work has been completed and that communication has been initiated with the applicant's engineering firm regarding application requirements. Prior to approval, the Planning and Zoning Committee will verify that all existing structures on the property comply with current zoning requirements, including applicable setback standards, following the proposed subdivision.

Mayor Ash asked if the council had any further questions for Planning & Zoning. No further questions were asked.

6. OLD BUSINESS

Sewer Project Update

Mayor Ash reported that a recent visit was made to the Town of Honea Path to observe and evaluate infrastructure and development conditions comparable to Campobello's long-term goals.

The visit provided additional insight into potential opportunities for future growth and utility expansion.

Council also received an update regarding discussions with consultants and regional partners. Staff reported a productive meeting with Jason McGraw to explore potential opportunities for partnership with the local school district and to identify cost-effective solutions that could support future sewer service needs within the Town.

Presentation by Covalen, Inc.

As previously discussed, Council invited Ryan Barrick of Covalen to provide information regarding wastewater and sewer service alternatives currently being evaluated.

Mr. Barrick explained his role in assisting municipalities, engineers, and community stakeholders in evaluating wastewater infrastructure options and identifying practical solutions to meet community needs. He also outlined several alternatives currently under consideration, including:

- Continued discussions with the Spartanburg Sanitary Sewer District (SSSD) regarding acceptance of wastewater from Campobello.
- Potential implementation of a low-pressure sewer collection system utilizing individual grinder pumps.
- Evaluation of package treatment plant options that could be operated through contracted services, reducing the need for additional Town staffing.
- Assessment of the existing lagoon system associated with Campobello-Gramling School to determine whether improvements could increase treatment capacity and reduce the amount of wastewater requiring transmission to neighboring utility systems.
- Exploration of extending low-pressure sewer infrastructure along Highway 357 to connect with the Town of Lyman, which currently has available treatment capacity.

Mr. Barrick noted that each option presents different opportunities, costs, and infrastructure requirements. Additional analysis and discussions with regional partners will continue as the Town evaluates the most feasible and cost-effective approach for providing future sewer service.

Code Enforcement Update

Staff reported that code enforcement activities are progressing well overall.

Discussion included an ongoing code enforcement matter involving a residential property. Staff indicated that the issue is being addressed and that progress has been made toward resolving the situation. No additional concerns were reported at this time.

Gosnell Park Project Update

Staff reported that the Gosnell Park improvement project is expected to be completed within the next two weeks and include updates such as:

- Construction of the retaining wall and steps is nearing completion.
- Minor construction challenges were encountered during the project; however, adjustments were successfully made and the final design is expected to integrate well with the completed wall.
- The project remains on schedule for completion and grant closeout.

Council noted the positive transformation of the park and expressed appreciation for the work being completed.

Grant Opportunities and Funding

Council discussed current and future grant opportunities available to the Town.

- The Fire Department is evaluating several potential grant opportunities and may pursue additional applications in the near future.
- The Town recently learned of a South Carolina Department of Transportation (SCDOT) sidewalk grant program after the application period had already closed and was therefore unable to apply during the most recent cycle.
- Staff is working with SCDOT representatives to identify future funding opportunities related to sidewalk improvements and infrastructure projects.
- Additional discussions are ongoing regarding grant opportunities associated with the historic retaining wall located near Town Hall.
- Staff is also pursuing information regarding Streetscape Program funding opportunities and other infrastructure-related grants.

Council emphasized the importance of aggressively pursuing grant funding to support Town projects while minimizing the financial burden on residents.

Members noted that neighboring municipalities have faced tax increases, while Campobello has been able to continue funding projects through careful budgeting and successful grant applications. Council agreed that continued grant research and planning will be important to maintaining momentum on community improvement projects. Council discussed the possibility of conducting a future workshop focused specifically on grant opportunities and funding strategies.

Topics discussed included:

- Identifying priority projects for future grant applications.
- Reviewing available state, federal, and private funding opportunities.
- Utilizing resources available through the Municipal Association of South Carolina and Appalachian Council of Governments (ACOG).
- Exploring assistance from grant specialists and regional partners who maintain databases of available funding sources.
- Making sure we are up to date on free training that is offered by the Municipal Association.

Staff reported that regional contacts have access to comprehensive lists of grant programs organized by project type, including infrastructure, sewer, transportation, and community development projects.

Council expressed interest in scheduling future discussions to better coordinate grant planning efforts and identify opportunities that align with the Town's long-term goals.

Business Expo and Community Partnerships

Mayor Ash discussed plans for a future Business Expo and continued efforts to strengthen relationships among local businesses, churches, and community organizations.

The event is intended to:

- Encourage collaboration among community partners.
- Improve coordination of community events and activities.
- Expand participation in Town-sponsored events and initiatives.
- Strengthen partnerships that support future community projects and celebrations.

Council noted that many businesses and organizations were instrumental in the success of the Town's 250th Celebration and expressed a desire to continue building those relationships.

7. NEW BUSINESS

Sidewalk Improvements

Council revisited discussion regarding proposed sidewalk improvements near Hybrid Hypersport.

Police Chief McNeill reported:

- Efforts are underway to obtain construction estimates for the project.
- Quotes may be available for Council review at the next regular meeting.
- The goal is to consider funding the project through the budget process and complete the improvement within the current fiscal year.

Council emphasized the importance of improving pedestrian accessibility and safety in the area.

Pacolet River Cleanup Initiative

Council received an update regarding ongoing efforts to address conditions along the Pacolet River.

Discussion included:

- Continued coordination with representatives connected to the Army Corps of Engineers regarding potential assistance and project opportunities.
- Efforts to document existing conditions and communicate local concerns related to river maintenance and drainage.
- Recognition that conditions worsened following Hurricane Helene, increasing the need for cleanup and mitigation efforts.
- The belief that improvements to the river corridor could positively impact drainage and stormwater management within the Town.

Staff will continue pursuing opportunities for assistance and potential funding.

Traffic Study Update

Council briefly revisited the upcoming traffic study planned for the intersection of Highways 176 and 357.

Staff reported that the study remains scheduled for September 2026 and will provide updated traffic data to assist with evaluating future traffic control improvements at the intersection.

8. OTHER BUSINESS

Road Paving Update

Council Member Stevenson asked about an update regarding planned road paving projects funded through county transportation allocations.

Police Chief McNeill reported:

- The Town is still awaiting additional information from the County regarding bid awards and construction schedules.
- Current information suggests countywide paving work could begin as early as September; however, no specific start dates have been provided for Campobello projects.
- Once schedules are finalized, residents will be notified through the Town's communication channels, including the Town's messaging service.

Council Member Sprouse addressed concerns regarding sidewalk damage and debris resulting from the recent SCDOT paving project.

Discussion included:

- Reports of asphalt debris and construction materials being left on portions of the sidewalk.
- Staff previously assigned maintenance personnel to remove significant amounts of asphalt and debris from affected areas.
- Concerns were expressed regarding damage and cleanup needs along portions of the sidewalk corridor.
- Council noted that the contractor should address remaining cleanup issues and restore affected areas as part of the project closeout process.

Staff indicated they would continue communicating with project representatives regarding outstanding concerns and necessary repairs.

Campobello 250th Celebration Follow-Up

Council briefly revisited the success of the Town's 250th Celebration.

Mayor Ash again expressed appreciation to the many volunteers, employees, public safety personnel, businesses, churches, community organizations, and residents who contributed to the event. He also noted that the celebration demonstrated strong community support and teamwork and helped build positive relationships throughout the Town. Members expressed a desire to continue that momentum through future community events and activities.

Budget Workshop and Audit Update

Council discussed the upcoming budget workshop scheduled for **Thursday at 6:00 p.m.**

Staff reported:

- The Town is still awaiting completion of its annual audit.
- The audit has been pending for several months, and staff continues to follow up regularly with the auditing firm.

- Council expressed hope that the audit will be completed and available prior to the budget workshop.

It was confirmed that Town staff and consultants, including Trey Eubanks, will participate in the budget development process and discussions regarding future financial planning.

9. Adjourned- July 13, 2026 at 7:30 p.m.

With no further business presented, Council Member Stevenson made a motion to adjourn, seconded by Council Member Sprouse and carried unanimously.

Let it be known, there are times it may be necessary for the Council Members to enter an executive meeting.

Town of Campobello Council Minutes were recorded by Town Clerk, Kim Hyder, on this 13th day of July, 2026
